# .NET Developer

## Обо мне

I'm a backend-focused .NET developer building scalable solutions for e-commerce (OpticsPlanet, 700,000+ customers) and entertainment platforms. Skilled in .NET Framework, .NET Core, Web API, SQL, and Docker. Experienced in Agile/Scrum, I've modernized CI/CD pipelines and migrated microservices to .NET 8, with frontend capabilities in JavaScript/jQuery.

- Backend: C#, .NET Framework, .NET Core, ASP.NET Core, RESTful APIs, Blazor, Entity Framework, RabbitMQ
- Databases: Microsoft SQL Server, MySQL, T-SQL, Redis, Elasticsearch
- DevOps: Git, Bitbucket, GitHub, Docker, GitLab CI/CD, TeamCity, Kubernetes, AWS
- Testing: nUnit, xUnit
- Tools: Visual Studio, Postman, Jira, Confluence, Kibana, Grafana, IIS
- Frontend: JavaScript, jQuery, HTML, CSS, React (basic knowledge)

## ТОП Навыки

- **SQL** · 6 лет
- **.NET** · 6 лет
- **Entity Framework** · 6 лет
- **.NET** · 6 лет
- **ASP Core Web API** · 3 года
- **HTML** · 2 года

## Пожелания

- Полный день
- Гибкий график
- Удалённо

## ЯЗЫКИ

- **Румынский** · Не знаю
- **Русский** · Родной
- **Английский** · Разговорный

## Опыт работы

### .NET Software Engineer · IdeaSoft.io · Remote

Декабрь 2023 - Настоящее время · 2 года 2 месяца

- Migrated core services from .NET Framework to .NET 8 for a high-traffic entertainment platform, leveraging Redis for caching to enhance system stability, scalability of distributed systems, and collaboration with European stakeholders.
- Modernized CI/CD pipelines with GitLab CI/CD and Docker, optimizing release cycles and aligning with DevOps practices.
- Implemented canary and blue-green deployment strategies with DevOps and Kubernetes, achieving zero-downtime releases through container orchestration for high-traffic platform services.
- Integrated 10+ third-party APIs for interactive features, enhancing platform functionality through API integration.

Skills: .NET · ASP.NET Core Web API · Entity Framework · Docker · Microservices · TeamCity · SQL

Навыки: SQL, TeamCity, Microservices, Docker, Entity Framework, ASP Core Web API, NET, .NET

### .NET Software Engineer · OpticsPlanet, Inc. ·

## Remote

Июль 2021 - Декабрь 2023 · 2 года 6 месяцев

- Refactored a monolithic ERP system into independent .NET services, enabling modular testing with NUnit for unit testing automation and faster feature delivery for an e-commerce platform.
- Automated order synchronization with suppliers using RabbitMQ message queues and T-SQL, streamlining processes with event-driven architecture.
- Automated legacy file transfers across Windows servers using PowerShell, reducing CI/CD deployment time from 2 hours to under 10 minutes.
- Facilitated transition to C# through code reviews and mentoring, improving team collaboration.
- Deployed centralized logging with Elasticsearch, Kibana, and Grafana, enhancing observability and automating Jira ticket creation.

Skills: .NET · ASP.NET Core Web API · SQL · RabbitMQ · Entity Framework · Blazor

Навыки: Blazor, Entity Framework, RabbitMQ, SQL, ASP Core Web API, .NET, .NET

## Full stack .NET Software Engineer · IT-Trend ·

Тирасполь

Октябрь 2018 - Июнь 2021 · 2 года 9 месяцев

- Developed a secure intranet portal using ASP.NET MVC and MS SQL Server, implementing role-based authentication to digitize workflows.
- Built a real-time messaging system using WPF and SignalR, boosting team communication efficiency with real-time updates.
- Created a multilingual automotive auction platform using .NET 5, implementing localization to improve user accessibility and transaction efficiency.

Skills: .NET · ASP.NET MVC · SQL · Entity Framework · jQuery · HTML · CSS

Навыки: CSS, HTML, JQuery, Entity Framework, SQL, ASP MVC, .NET, .NET

## Желаемая отрасль

- ИТ, Технологии

## Образование: Высшее

### Shevchenko Transnistria State University

Год окончания: 2021

Факультет: Engineering and technical faculty

Специальность: Information technologies
