# Front-End Developer

## Опыт работы

**Lead Front-End Developer** · DocSpace · Кишинев  
*Февраль 2024 - Август 2025 · 1 год 7 месяцев*

Led the front-end team, defined coding standards, and conducted code reviews.

Mentored developers, supported onboarding, and improved overall team performance.

Designed and implemented task and sprint management workflows,

including complex dashboards and interactive views.

Developed a reusable UI Kit and component library to unify the product experience.

Integrated advanced features such as drag-and-drop boards (Dnd Kit) and

dynamic data grids (TanStack Table).

Collaborated with product managers and designers, shaping the roadmap and influencing architecture decisions.

Optimized performance and improved accessibility across the platform.

Навыки: TanStack Table, Dnd Kit, CSS Modules, Mantine, REST API, RTK Query, TypeScript, React

**Senior Front-End Developer** · Helium 10 · Кишинев

*Сентябрь 2021 - Январь 2024 · 2 года 5 месяцев*

Worked in a product team (microservices).

Mentored the team developing components and widgets.

Participated in the development of the UI Kit library.

Built a complex Dashboard; contributed to multiple Tools.

Influenced tech stack decisions; several proposals were adopted.

Навыки: React-hook-form, Highcharts, Styled-components, REST API, TypeScript, Zustand, React

## ТОП Навыки

- **REST API** · 6 лет
- **React** · 6 лет
- **TypeScript** · 5 лет
- **Styled-components** · 3 года
- **React-hook-form** · 2 года
- **Highcharts** · 2 года

## Пожелания

- Полный день
- Свободный график
- Частичная занятость
- Гибкий график
- Удалённо
- Гибрид (Дом/Офис)

## Языки

- **Румынский** · Базовый
- **Русский** · Родной
- **Английский** · Средний

## Водительское удостоверение

Категория: А, В  
С личным авто

## **Front-End Developer** · DexTechnology · Тирасполь

*Ноябрь 2019 - Июнь 2021 · 1 год 8 месяцев*

Maintained and extended the application in a team.

Built multi-step forms and product landing page.

Led the project and migrated the tech stack, improving stability.

Навыки: Antd, React- hook-form, Styled-components, REST API, TypeScript, Redux-Toolkit, React
