# Engineering Manager

## Despre mine

Engineering leader with over 20 years of experience delivering high-impact digital products across e-commerce, healthcare, and travel. Proven success in turning around delayed projects, integrating legacy systems, and scaling distributed teams and platforms.

Hands-on with modern architectures, cloud platforms (AWS, Azure), CI/CD, and secure software delivery in regulated environments. Strong in technical team leadership, agile methodologies, and cross-functional collaboration.

## Experiența profesională

### Engineering Manager · Fresenius Medical Care · Chișinău

*Februarie 2023 - Prezent · 3 ani*

Leading cross-functional software development teams in the medical device domain, with a focus on delivering high-quality, compliant, and secure digital health solutions.

\* Oversaw architecture and development of cloud-connected medical applications.

\* Drove engineering excellence across two distributed teams, promoting a culture of technical ownership, clean architecture, and test automation.

\* Collaborated with product, internal customers, and regulatory to streamline SDLC processes, to deliver according to plan.

Implemented Agile practices and CI/CD pipelines, improving deployment frequency, team velocity, and quality.

\* Mentored teams members, supporting their professional growth and ensuring high performance.

\* Actively participated in cross-department and feature planning, and risk management activities related to medical software.

\* Drive new features, like modern UI/UX, REST API, IoT, Remote Software Updates.

Competențe: Managementul Echipei, Lucrul în Echipă

### Engineering Manager · Mixbook · Chișinău

*Iulie 2021 - Iulie 2022 · 1 an 1 lună*

Led the E-Commerce engineering team to deliver high-impact improvements to Mixbook's online shopping experience,

backend systems, and print fulfilment operations.

- \* Directed technical execution of core e-commerce features including product catalogues, checkout flows, pricing, and promotions.
- \* Integrated third-party printing systems, ensuring seamless order routing and high operational reliability.
- \* Directed an experimentation-driven development culture using A/B testing and data analytics to validate product decisions.
- \* Collaborated closely with product, design, and marketing to align technical delivery with business goals and conversion KPIs.
- \* Improved site performance and deployment stability by refining CI/CD pipelines, test automation, and observability practices.
- \* Supported recruiting and onboarding processes, helping grow and mentor a high-performing distributed engineering team.

Competențe: Lucrul în Echipă, Managementul Echipei

## **CTO · IG Wines · Chișinău**

*Ianuarie 2020 - Iunie 2021 · 1 an 6 luni*

Brought in to stabilise and accelerate delivery of a critically delayed e-commerce and inventory platform for a fine wine merchant.

- \* Assessed and overhauled a failing codebase and project plan, restoring delivery timelines and stakeholder confidence.
- \* Defined and executed a roadmap to integrate the new platform with a complex legacy stock management system.
- \* Launched mobile iOS/Android apps and E-commerce for customers.
- \* Built and led a cross-functional development team from the ground up, including hiring, onboarding, and mentoring.
- \* Established engineering practices, CI/CD pipelines, monitoring, and security baselines to support operational resilience.
- \* Collaborated with business stakeholders to prioritise features and deliver measurable impact on operational efficiency and customer experience.
- \* Laid the foundation for future scalability by introducing modern tooling, test automation, and Agile delivery cycles.

Competențe: Lucrul în Echipă, Managementul Echipei

## **CTO · Winerist.com · Chișinău**

*Ianuarie 2020 - Iunie 2021 · 1 an 6 luni*

Led engineering for a niche travel platform focused on wine tourism, with a mandate to stabilise operations and evolve the product offering.

- \* Took ownership of an underperforming platform, modernised its infrastructure, and significantly improved site stability and responsiveness.
- \* Worked directly with business stakeholders to re-align technical priorities with commercial objectives, including new B2C and B2B feature sets.
- \* Launched customisable booking widget for partner integration,

with availability and payments.

- \* Implemented Agile processes, CI/CD pipelines, logging, and monitoring to support fast, safe iteration.

- \* Recruited and managed a development team, establishing clear delivery goals and sustainable velocity.

- \* Led the redesign and implementation of the booking and inventory logic.

- \* Reduced technical debt by refactoring legacy code, improving test coverage, and introducing modern development workflows.

Competențe: Lucrul în Echipă, Managementul Echipei

### **QA Manager** · Extole · Chișinău

*Februarie 2016 - Iunie 2019 · 3 ani 5 luni*

- \* Helped set up and grow the Moldova team.

- \* Implemented fully automated testing and production monitoring.

Competențe: Lucrul în Echipă

### **Automation Lead** · Adobe · Chișinău

*Octombrie 2009 - Ianuarie 2016 · 6 ani 4 luni*

- \* Lead the move to automated testing and grow an automation team.

- \* Train team members across multiple locations.

Competențe: Managementul Echipei, Lucrul în Echipă
