Frontend developer

Despre mine

React Developer with 5+ years of experience delivering production-grade web and mobile applications end-to-end. Skilled at collaborating with cross-functional teams, mentoring developers, and making architectural tradeoffs to align solutions with business needs. Proficient in JavaScript/TypeScript, React, Next.js, React Native, and Node.js, with hands-on experience in CI/CD, cloud services, and modern development practices.

Experiența profesională

Senior JavaScript Developer · EXCT · Chișinău

Aprilie 2024 - Prezent · 1 an 10 luni

Designed and delivered a production React Native application, owning the process from architecture to deployment, integrated with an existing e-commerce ecosystem.

Built backend services using Node.js (T3 stack), and AWS, ensuring scalability and fault tolerance.

Created and maintained a reusable UI component library and integrated Shopify Storefront API via GraphQL.

Provided technical guidance, mentoring junior developers and enforcing coding best practices.

Collaborated closely with product and design teams to implement accessible, user-focused UIs.

Contributed to Shopify storefront development and CI/CD pipelines, improving performance and deployment reliability.

Developed native Swift and Java modules for React Native integration, extending app functionality.
