Back-End Developer (Python), Machine Learning Engineer

About me

Dedicated and innovative web developer with a strong passion for Python programming. Skilled in developing dynamic and responsive web applications, I bring a creative and detail-oriented approach to each project. My commitment to clean and efficient code and my ability to adapt to emerging web technologies make me a valuable asset to any development team. With a solid foundation in Python, I am constantly exploring new ways to harness my power to create intuitive, user-friendly, and visually appealing websites.

Desired industry

- IT, Tech

Education: Incomplete higher
