Digital Marketing Manager

About me

As an Digital marketing manager with a proven track record of driving online growth and maximizing digital marketing strategies, I bring a dynamic blend of creativity, analytical skills, and strategic thinking to the table. With a deep understanding of the digital landscape and consumer behavior, I have successfully executed comprehensive online marketing campaigns to increase brand awareness, generate leads, and drive conversion rates.

Throughout my career, I have excelled in optimizing search engine visibility, managing social media channels, and implementing targeted advertising campaigns across various platforms. I am adept at leveraging data-driven insights to develop actionable marketing strategies that deliver measurable results. My expertise includes search engine optimization (SEO), pay-per-click (PPC) advertising, social media marketing, email marketing, and content marketing.

I thrive in fast-paced environments and possess strong project management skills, allowing me to successfully coordinate cross-functional teams and deliver projects within tight deadlines. I am highly analytical and detail-oriented, continuously monitoring campaign performance and making data-backed adjustments to optimize ROI.

With excellent communication and interpersonal skills, I am experienced in collaborating with clients, stakeholders, and team members to ensure alignment and achieve business objectives. I am constantly staying updated with the latest industry trends and digital marketing advancements to stay ahead of the curve and drive innovation.

Overall, I am a results-driven Internet Marketer passionate about leveraging digital channels to drive growth and achieve marketing goals. I am excited to bring my skills and expertise to a dynamic organization where I can make a significant impact and contribute to its success.

Work experience

Digital Group Head · Dental Clinic LLC · Moscow

August 2020 - January 2025 · 4 years 6 months

- Purchased and warmed up new Facebook accounts for advertising campaigns.
 - Searched and studied services that provide payment for Facebook advertising services for legal entities. I had previously worked with one service that had proven itself well, so I resolved this issue within 2 business days. (Registration - Signing of documents, Balance top-up - Start)
 - Compiled a road map for launching advertising campaigns, developed strategies and studied the target audience. Completed within 3 business days.
 - Determined landing pages for directing traffic and generating leads. I categorically refused to use a website, as previous experience had shown that websites do not produce very good results in this field in the Russian Federation. Therefore, I decided to use proven and effective tools, such as quizzes and lead forms in advertising accounts, etc. This issue was resolved within 1 working day.
 - Began working with the team (team formation was done jointly with the marketing director). Assigned tasks to each employee (designer, copywriter, programmer, analyst) and set deadlines. Accepted all completed tasks and began preparing for the launch of advertising campaigns.
 - After just one month of working in the company, the first results were already visible: the average check increased by 12 times, ROI was nearly 600%, and the call center was overloaded with quality leads beyond the norm (attracted 100-150 quality leads daily, where the conversion rate was around 40-48% per deal, and then some more, Further, with an upsell, the average cost per lead was 50%+ cheaper than that of competitors.
