Работник на производство

Обо мне

Short description

An experienced specialist with many years of experience in various technical fields, including the maintenance and operation of grain cleaning equipment (Deku mill, VIM machines, Pitkus, Giant) and plastic recycling (HDPE, PET, LDPE, PS, PP). I have extensive practical skills in feeding, cleaning and crushing grain, as well as in the processing of various types of plastic, acquired through self-study and work.

Work experience

Grain cleaning equipment maintenance specialist

Deku mill, VIM, Pitkus, Giant machines

Duties:

Feeding grain (wheat, barley) for straw cleaning at the Deku mill.

Filling of grain (wheat, barley, soybeans, corn) into the crusher bucket.

Operation of the Pitkus Giant grain cleaning machine to separate grain into good and waste
