QA Manual Tester

About me

Detail-oriented and adaptable QA Engineer with over 7 years of hands-on experience in manual and automated testing across finance, payments, and insurance domains. Passionate about delivering high-quality software through meticulous testing and continuous learning. While I have led QA teams in the past, I am currently seeking a more practical and collaborative role where I can focus on deepening my hands-on skills and contributing directly to product quality.

Work experience

Manual QA Engineer · Endava · Chișinău

March 2017 - May 2024 · 7 years 3 months

- Led QA initiatives across multiple teams ensuring alignment with client standards and quality expectations.
- Mentored and supported QA engineers in adopting best testing practices and methodologies.
- Organized and delivered on-boarding and knowledge transfer sessions for new team members.
- Played a key role in hiring, structuring, and training three new QA teams from the ground up.
- Collaborated with Product Owners and Design Leads to ensure requirements traceability and effective test coverage.
- Reviewed and validated test cases, test plans, and documentation to ensure compliance and completeness.
- Provided leadership in functional, non-functional, regression, usability, and compatibility testing.
- Analyzed test results and suggested improvements in execution and efficiency.
- Supported defect triage and investigation of production issues, ensuring minimal business impact.
- Maintained strong communication with cross-functional stakeholders and promoted continuous QA process improvement.
- Actively participated in sprint ceremonies and supported continuous delivery goals.
- Conducted cross-browser and cross-platform compatibility testing to ensure consistency.
