Manual QA Engineer

About me

Over the past years, I have developed strong skills in manual testing by working on complex web and mobile applications, focusing on functionality, usability, and API testing. I am proficient in creating detailed test cases, identifying critical issues, and collaborating with Agile teams to improve product quality. After a break dedicated to personal development and freelance projects, I am now fully committed to joining a dynamic company where I can apply my skills, contribute to delivering high-quality software, and grow professionally.
