Designer furniture

About me

Attentive and creative specialist in the field of design. I trust in the use of modern software for design, 3D modeling and video editing. In SketchUp I create detailed 3D models for interiors and landscape objects and I visualize spatial solutions. In AutoCAD develop drawings, plans and schemes, taking into account all sizes and annotations. In Photoshop I do retouching, color corrections and collages. I use Adobe Premiere Pro for video editing, sound and color processing, adding effects and titles. I create logos and elements of corporate identity in Adobe Illustrator. In Twinmotion I view architectural and landscape projects in their environment, and in CorelDRAW I develop models and materials for printing.

Work experience
