Junior - Web Developer

About me

Actively seeking internships or collaborations to apply my skills in real-world environments and grow as a professional (including unpaid work for a few months).

Driven and enthusiastic Web Developer with a strong foundation in modern web technologies and a proven ability to build interactive, user-focused applications. Passionate about technology and eager to contribute to impactful projects while continuously expanding my expertise. Highly ambitious, quick to learn, and committed to delivering results.

Work experience

GitHub Portfolio · - · Chișinău

January 2025 - Present · 11 months

Own and maintain a public GitHub portfolio with multiple frontend-focused projects. Key highlights include:

- CovrigGame: a largest project till date developed in JavaScript — includes gameplay logic, UI design, and user interaction.
- StadiuIndividualNr2: developed front-end level components with HTML, emphasizing structure, layout, and styling.
- Practica: experiments in React and associated technologies — building reusable components, managing state, and integrating interactive features.

Constantly exploring best practices in web development: responsive design, clean code, debugging, and performance improvements.
