Java Developer

About me

I'm a young professional from Moscow, trying to find a place where I can fully unleash my potential. As an energetic extrovert, I'm looking for an active, collaborative team where I can grow and contribute both technically and personally. I'm a "social butterfly" — so I'm particularly drawn to hybrid roles rather than fully remote ones. I enjoy interacting with people, finding common ground, and solving problems together.

Work experience

Java Developer · Cedacri International · Chișinău
October 2023 - Present · 2 years

Design and develop microservices architecture;
Build and maintain event-driven systems;
Conduct code reviews and participate in brainstorming sessions;
