About me

I previously worked as an International Business Development Manager. A few years ago, I switched my

field of activity to programming. For the past 3 years, I have worked as a Python Backend Developer on

various projects.

I enjoy traveling, watching movies, and playing tabletop role-playing games. I speak fluent Spanish and

English.

Work experience

Backend Python Developer · APIA Sport · Peste hotare

July 2024 - Present · 1 year 7 months

Development of a web service and a mobile application for booking sports facilities and equipment. I take part in the entire backend development cycle of the product: from architecture design to writing tests and SQL query optimization.

Main responsibilities:

Architecture design and implementation of modules for the admin panel and the user community

Development of CRUD APIs, implementation of business logic and integration modules

Writing unit tests (Pytest), technical documentation, and CI/CD configuration

Optimization of SQL queries and cache management

Working with containers and deployment using Docker + Nginx

Skills: GitHub, Poetry, Pytest, Minio, Nginx, Docker, PostgreSQL, Redis, Celery Beat, Celery, SQLAlchemy, AWS, Pydantic, FastAPI

Python Backend Developer · Amplifier Consultancy · Peste hotare

September 2022 - July 2024 · 1 year 10 months

Development of a CRM system for UGMK (Ural Mining and Metallurgical Company) one of the largest industrial

Driving licence

Category: B

conglomerates in Russia. I developed system modules from scratch: architecture design, business logic implementation, and integration with internal services.

Main responsibilities:

Development of REST API using DRF and Django ORM

Database structure design and implementation of business logic

Working with hierarchical data structures (Django MPTT)

Asynchronous task processing with Celery + Redis

Preparing unit tests, documentation, and SQL query optimization

Application containerization and CI/CD configuration

Skills: GitHub, Unittest, Nginx, Docker, PostgreSQL, Pandas, Redis, Celery, Django MPTT, Django REST Framework

Desired industry

- IT, Tech

Education: Higher

Lomonosov Moscow State University (MSU)

Graduated in: 2017

Speciality: International relations

Courses, trainings

Data scientist

Graduated in 2022

Organizer: Bauman Moscow State Technical University
