## Despre mine

Currently I'm a student at TUM 2nd year, with interest in

- Cycling
- Swimming
- English literature
- Computer stuff / Electronics .

I can adjust myself around the situation, meaning that I can play as both a team-player or solve the tasks on my own. Both come with their own bonuses one helps solving the question from different points of view, while the other helps me find and develop my own self.

Giving that I'm confident in my English skills and have some experience in the domain I would like to apply for a job where I'd make use and further develop both of them.

- Appolo GDS.
- Teaching someone, or sharing information.
- Know my way around a computer
- Basic programming skills.
- Open minded.
- Ready to learn new things.

## Experiența profesională

**Travel Manager** · International Travel Network · Chișinău

*Iulie 2017 - Septembrie 2017 · 3 luni*

My main job when I worked at ITN, was of course to sell airline tickets. In order to accomplish this I had to stay on the line waiting for calls, giving information to a potential client in the most attractive way that I was able to. Most of the times however there were no calls, so I was the one calling my customers that left previously a request for a ticket. After their trip was over I usually called them back to get some feedback.
