# Front-End Developer

## About me

Experienced Frontend Developer with 5+ years in React, Redux, and JavaScript, specializing in UI architecture and performance optimization. At Endava, I develop and maintain high-performance financial applications within an Agile team, ensuring clean code and optimal UX. Previously, as a Frontend Lead, I built a restaurant service app from scratch, driving tech decisions and team collaboration. Passionate about building intuitive interfaces, maintaining code quality, and mentoring developers.

## Work experience

### FRONTEND DEVELOPER · Endava · Chișinău

*January 2020 - Present · 6 years 1 month*

- Develop and maintain a high-performance financial trading application in an Agile team.
- Led UI performance optimization, improving load times and reducing rerenders.
- Maintain and enhance core libraries shared across the application.
- Mentored junior developers, ensuring best practices in frontend development.
- Collaborated with UX designers and stakeholders to refine the user experience.
- Participated in Scrum ceremonies, contributing to product refinements and planning.

Skills: Agile, Redux, React

### FRONTEND LEAD STARTUP · - · Tel Aviv

*May 2021 - July 2022 · 1 year 3 months*

- Developed a restaurant service application from scratch, making key technology stack decisions. • Designed scalable frontend architecture ensuring modularity and maintainability.
- Led a team that collaborated with backend developers for smooth integration.
- Partnered with UI/UX designers to align business vision with best practices.
- Ensured high-quality code standards, improving performance

and usability.

Skills: Tailwindcss, Startup, React-query, React
