Network Engineer

Despre mine

I am a highly experienced IT professional with over 15 years of industry experience in various roles, including IT Support, Network Security, Cyber Security, and Cisco Netacad Instructor. I have expertise in CCNA, CCNP, Linux, Linux Scripting, Python for Hacking, and Java Programming. Throughout my career, I have honed my skills in providing excellent IT support to clients, troubleshooting technical issues, and maintaining network security.

As an experienced IT Support professional, I have worked with diverse clients from different industries, helping them with various technical issues, including password resets, internet connectivity issues, and email setup. I have experience with ticketing systems, documenting issues, and escalating problems to higher levels of support when necessary. I have also conducted online IT training classes and certifications, helping learners worldwide to achieve their career goals in the IT industry.

With my expertise in IT Support, network security, and cyber security, I am committed to providing outstanding technical support to clients while ensuring their networks are secure and free from threats. I am dedicated to staying current with the latest IT technologies and techniques, and I am always eager to learn and improve my skills.

Thank you for considering my application. I am excited about the opportunity to contribute my skills and expertise to your organization.

Cisco Certified Academy Instructor (CCAI) ·
AAHAD IT SERVICES CISCO ACADEMY (3017024) —
Faisalabad, PK

Martie 2009 - August 2013 · 4 ani 6 luni

Provide quality education as per course curriculum of Cisco Academy for CCNA Routing and switching, CCNA Security, IT Essentials with passive support of CISCO Support Center Islamabad (ICT).

Responsibilities:

- Delivering lectures as per the Cisco Certification Course outline for each course, covering topics such as networking fundamentals, LAN switching technologies, routing technologies, network security, and more.
- Conducting "Packet Tracer Activity & Labs" as per the companion guide for each course. This involves setting up and configuring Cisco routers and switches using Packet Tracer, a network simulation tool, to give students hands-on experience in configuring and troubleshooting networks.
- Conducting online Chapter Exam, Practice Final Exam, Final Exam, and Skill Based Assessment to assess students' understanding and progress.
- Preparing the grade book and applying for certificates and letters for students who successfully complete the course.
- In addition to these responsibilities, you would also need to

have access to
Cisco hardware routers and switches to provide students with hands-on
experience in configuring and troubleshooting real-world networks. The specific
models of hardware routers and switches would depend on the course being
taught, but could include models such as the Cisco 1841 router, Cisco 2960
switch, and Cisco 5505 ASA firewall for the CCNA Security course.

IT Officer · Shalimar Picker Industry, Faisalabad-PK
