Python Developer Middle

Despre mine

I am a web developer with more than 3 years of commercial experience. I specialize in Backend development using Python frameworks and libraries. My skill set includes API development (RESTful, GraphQL, gRPC), testing (Selenium, PyTest, Unittest), database management (SQL/NoSQL), frontend development (HTML, CSS, JavaScript, React), and software systems design. I help companies automate their processes, create innovative solutions and implement MVP for startups

In my free time, I study English, read books, and go hiking.

Experiența profesională

Software Engineer · Quorum · Chișinău

Martie 2025 - Prezent · 10 luni

Competențe: Python, System Design, Docker, Scrapy, Selenium, Celery, FastAPI

Back-End Developer · Avataa · Chișinău

Septembrie 2024 - Martie 2025 · 6 luni

It was a temporary contract. That's what I did:

- developed a new microservice from scratch
- refactored two existing microservices (architecture improvements, code quality optimization)
- implemented comprehensive testing for microservices (unit, integration, and API tests)
- optimized inter-service communication and improved overall service performance
- maintained technical documentation

Competențe: FastAPI, Testing, AWS S3, Docker, Microservices, Kafka, Software Design

Backend Engineer · DataDrive · Chișinău

Iulie 2023 - August 2024 · 1 an 2 luni

I was working at DataDrive on internal business projects. I

👤 25 ani

📍 Chișinău
💰 35 000 MDL

in in 🔗 🔗

TOP Competențe

- **Python** · 3 ani
- **Django** · 2 ani
- **Celery** · 2 ani
- **Testing** · 1 an
- **Selenium** · 1 an
- **Docker** · 1 an

Preferințe

- Full-time
- Part-time
- Fără program
- În locația angajatorului
- Hibrid (Oficiu/Acasă)
- Remote

Limbi

- **Română** · Elementar
- **Rusă** · Fluent
- **Engleză** · Fluent

Competențe

- Agile Methodology
- Process Optimization
- Software Design

worked on the ERP system, within which I implemented various modules: a module for managing social networks, a module for automating work with leads, a knowledge base, etc.

I also implemented the server side of a bot designed to answer questions. For this bot, I implemented a search engine to search for similar questions, as well as a system for rating the bot's answers.

Competențe: Python, Odoo, Backend, Software Design, Selenium, English, Django

Web Developer · Upwork · Chișinău

Decembrie 2022 - Iulie 2023 · 8 luni

I have worked with companies on various projects. Implemented an API for calculating the cost and time of delivery, a website with career routes, a landing page generator and some other projects.

Completed projects:

- Website with career routes
- API for shipping calculations
- Landing page generator
- Admin panel for content management

Competențe: Django, Python, Restful API, Testing, SQL, Docker, English, React, Celery

Python Developer · StatusPraesens · Москва

Februarie 2022 - Martie 2023 · 1 an 1 lună

I was involved in automating various processes (mailing, shortening links with generating QR codes), writing APIs and documentation.

Competențe: Python, Testing, Celery, Web Scraping, Git, GitHub, SQL, Django, DRF

Domeniul dorit

- IT, Tech

Studii: Superioare incomplete

MIPT

Absolvit în: 2022

Facultatea: Faculty of Radio Engineering and Computer Technologies

Specialitatea: Applied mathematics and physics
