Front-End Developer

About me

Looking for a promising company with interesting projects.
Front-end developer with 1+ year of commercial experience in developing and improving CRM/ERP system.
Eager to grow in React / Angular.

Work experience

Front-End Developer · Primo Tech Solutions · Chișinău

October 2023 - Present · 2 years 4 months

- Led a complete redesign of the user interface, enhancing usability and mobile adaptation.
- Migrated modal windows to AJAX requests, improving dynamic interactions without page reloads.
- Refactored HTML code, following designer mockups and semantic markup principles.
- Conducted a full CSS refactoring, implementing reusable UI components.
- Created new pages and elements within the system based on the MVC pattern.
- Worked with Git: created and closed issues, maintained version history.
- Wrote SQL queries to interact with the database.
- Developed two multi-page websites from scratch, including adaptive layout and styling.

Skills: Bootstrap, Github, Git, JavaScript (Programming Language), HTML5, Cascading Style Sheets (CSS), JQuery, PHP (Programming Language)
