Full-stack PHP Developer

About me

Senior Full-stack PHP Developer with over 20 years of diverse experience. My expertise encompasses the development of new, full-scale websites from scratch, as well as the enhancement of existing products. I am dedicated to identifying the most practical solutions to meet business strategic objectives through a hands-on approach.

Key Skills:

- Programming Languages: PHP, JavaScript, CSS.
- Frameworks: Laravel, Bitrix, Vue.
- Databases: MySQL, Redis, MongoDB.
- Base Server Administration: Debian, Ubuntu, CentOS.
- Search Engines: Meilisearch, Manticore, Sphinx.
- Setup: nginx, php-fpm, mysql.

Expertise Highlights:

- Full-cycle development of websites and applications, from concept to deployment.
- Practical experience in building and maintaining e-commerce platforms and fintech solutions.
- Modernizing and optimizing legacy systems for improved performance and scalability.
- Strong analytical skills to devise effective, business-oriented technical solutions.
- Comprehensive experience in server configuration and deployment.
- Collaborative team player with a focus on achieving measurable results.

Work experience

Senior PHP Developer · Ibeauty · Moscow

October 2021 - Present · 4 years 3 months

- Conducted a comprehensive website audit, pinpointing areas for improvement aligned with the new sales strategy. Efficiently allocated resources across internal and external teams to ensure timely and effective task execution.
- Redesigned and optimized the company's website, leading to a 30% increase in user engagement and enhanced customer
