Low Poly 3D Modeler

About me

I am modeling since 2021, i am very fluent on English, so fluent, that i can understand meaning and jokes than usual.

I also very much enjoy modeling low poly in Blender because is it from my past experience on Roblox game. The more Less are the tris, the more fps is on the game.

I love modeling mostly like: Weapons, Creatures, Armory and even Machinery.

I would love to enjoy modeling on a company, staying on your own computer, listening to the music, and just model what they say, and you model it like is just a hobby.

Oh i also love class based, Soulslike, Roguelike and Indie games alot. Especially Risk of Rain 2.

If you want to see my model by yourself, i can show you.

Desired industry

- Art / Entertainment
