Software Architect

Despre mine

Experienced Software Engineer and Consultant with 20 years of experience with a broad technical background and a strong focus on staying up to date with modern technologies. Highly results-oriented, always aiming for clear and simple solutions without compromising on quality. Known for a proactive mindset and a collaborative attitude within teams. Brings a well-founded vision and confidently contributes ideas to support the team and improve outcomes when needed. Key characteristics include perseverance, well-developed soft skills, and a strong, decisive personality.

Experiența profesională

Cloud Architect & Consultant · StudyTube (via Xebia) - All-in-one learning platform that simplifies closing skill and compliance gaps. · Amsterdam

Februarie 2024 - Februarie 2025 · 1 an 1 lună

- Successfully migrated complete cloud environment (VPC, Route53, S3, RDS, Redis clusters, Elasticsearch, EC2 etc.) to different region to serve the market in that specific region without any downtime.
- Implemented a multi-account cloud setup to enhance security, ensure compliance, and enable clear separation between teams. Improved collaboration, productivity, and resource control.
- Optimized existing Terraform setup by migrating manually created resources to code and improved CI/CD pipelines using GitHub Actions for more consistent and automated deployments.
- Lead the company's development team, providing guidance and support to enhance the organization's cloud infrastructure in accordance with best practices.
- Added remote state management (S3 and DynamoDB) for collaboration, locking & concurrency, backups & recovery, security, automation and auditability.
- Implemented autoscaling for EC2 to reduce cost during off-peak hours.
