Software and Application developer

About me

Ready for full-time work. Experienced in software and web application development, process automation, and solving real-world problems. Quick learner, communicative, and responsible. A developer with a solid theoretical foundation and a strong drive for professional growth. Eager to learn new technologies quickly, integrate into a team, and contribute effectively.

Work experience

CNC Machine Operator · Secret Doors · Chişinău
October 2025 - November 2025 · 2 months

Skills: NC Studio, Professional Responsibility

Full-Stack Developer (Python) · Online Auto Parts Store with Recommendation System (Prototype) · Chişinău

April 2025 - June 2025 · 3 months

Developed an online auto parts store based on a reselling model. Implemented a recommendation system using Scikit-learn, user registration, search, cart, and order features. The interface is adaptive and user-friendly.

Skills: Python, Scikit-learn, Pandas, JavaScript, CSS, HTML, SQLite3, Django

Chatbot Developer (Python) · Telegram Chat-Bot for Audio Transcription with Diarization · Chişinău

March 2025 - March 2025 · 1 month

Developed a Telegram bot for automatic transcription and speaker diarization (role separation) of audio and voice messages using the AssemblyAI API. Implemented asynchronous processing, logging, and environment variable management. Suitable for analysis, documentation, and note generation.

Skills: Hugging Face, Torch, Audio, Pyannote, Asyncio, AssemblyAI, Aiogram, Python
